

**PLOTTING EQUIPMENT**

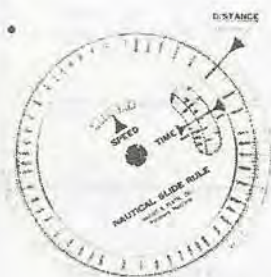

**1. TACRO DIVIDER**

**407** 6" Giant Bow Pencil w/spare part kit, draws circles up to 9", non-glare satin finish. #3608 210492

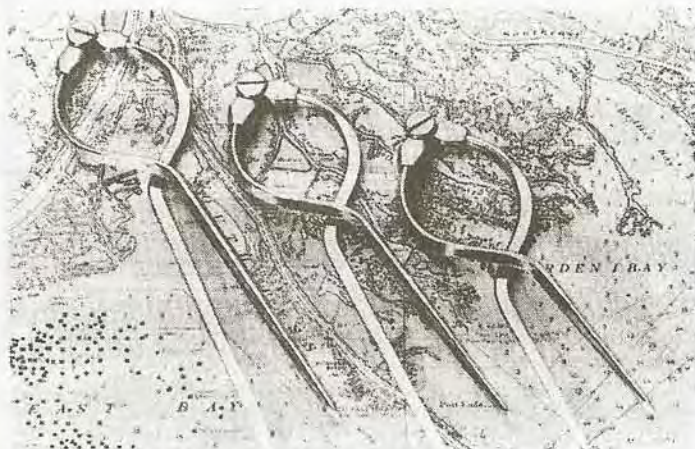

**2. CHART DIVIDER**

Made in Germany to highest maritime standards, plated for corrosion resistance, self-centering head, high nickel polish replaceable

**NAUTICAL SLIDE RULE**

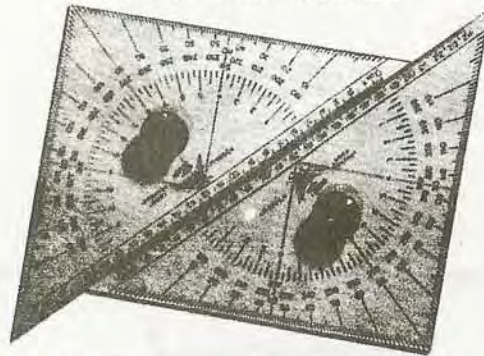

So simple a child can operate it. Gives immediate solution to all speed-time-distance problems. Equally applicable for nautical or statute miles. Speed in knots or m.p.h., time in hours, minutes or seconds, distance in nautical or statute miles (or yards if desired and if speed is knots). Easy to read and accurate. Standard in U.S. Navy. **210593**

**ONE HAND BRASS DIVIDERS**

The same model used on clipper ships modernized. Polished brass, stainless steel points, the most convenient chart divider. One hand opens and closes. **7" 210482 8" 210485**

**PROTRACTOR TRIANGLES**

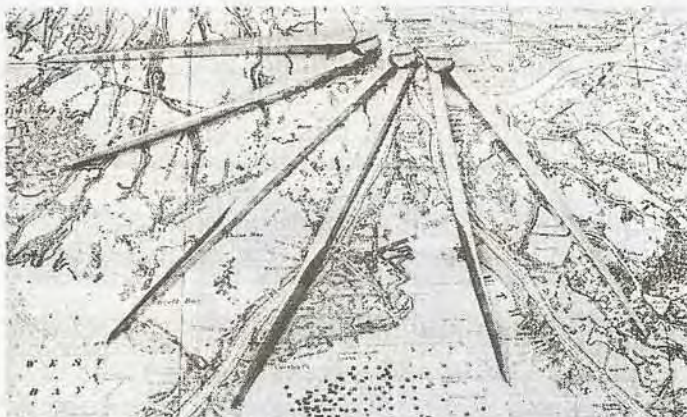

Two 45° triangles provide an easy method of plotting and doing other chart work. Using protractor scales, triangle is easily aligned in any direction with a chart meridian. Direction is maintained as one triangle is slid along the other to the desired position. Durable, clear, vinylite. Short sides 7½"

**1. FOLDING PARALLEL RULES**

Available in crystal clear plastic. Equipped with friction pads to prevent slipping when in use. All metal parts are corrosion resistant. Both sections of the rules are beveled outwards. **12" 210596 15" 210598 18" 210600 24" 210601**

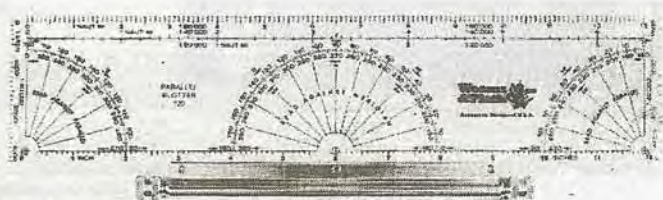

**2. GRADUATED PARALLEL RULES**

Parallel rulers with bevels on all four sides. Links of plated brass springs built in the bearings ensure a pleasant motion cork-disks on the underside preventing sliding material. Extra strong, crystal-clear acrylic. **12" 210603 15" 210604 18" 210606 21" 210607 24" 210610**

**STRAIGHT BRASS DIVIDERS**

Traditional straight pattern dividers. Heavy duty with pin point accuracy, polished brass with stainless steel points. **7" 210477 8" 210479**

**PARALLEL PLOTTER**

This instrument consists of a plotter mounted on a roller. The plotter contains distance scales at 1:20,000, 1:40,000 and 1:80,000 to fit NOAA charts, also includes an inch scale. A semi-circular protractor is included for measuring courses and bearings against a meridian on
