

ABS (Acrylonitrile-butadiene-styrene) is the same tough, industrial plastic used in luggage, football helmets, boat hulls and some auto body panels. Scratch and fade resistant.

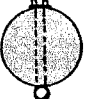

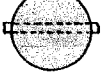

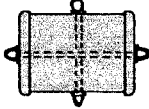

FEATURES

- Easy reconditioning of weather-worn buoys, with excellent adhesion of restoration materials. See pages 18 and 19.
- Tough ABS plastic exterior—will not rust, chip or peel.
- Ultraviolet inhibited.
- Completely urethane foam filled.
- Colors—orange and white.

AVAILABLE OPTIONS

- Yellow available on special order
- "B" Type Floats available with larger I.D. pipe thru center.
- Reflective bands and symbols available on Models B1830 and B2436.
