

20 and 30 Million Candlepower "Classics"

Features

- 12-inch(305mm), 350 Watt....20 Million Candlepower
15 inch(381mm), 500 Watt....30 Million Candlepower
- Remote Electric Beam-Size Focus
- Sparkling Brass Chrome, Marine Enamel or Powder Coat Finish
- Advanced Joystick combines simultaneous Speed and Aiming with one hand... while freeing other hand to steer vessel!
- Beyond 380 Degrees Horizontal Rotation with Sliding Stop-Design
- Reflector is Advanced Electroformed "Deep-dish Optic"...collects more light and produces 1-Degree Beam Collimation
- Reflector made of virtually indestructible Nickel...nearly always lasts the life of the Searchlight!
- Upside Down Mounting Option
- Voltages: 115VAC, 230VAC and Optional 24VDC
- Multiple Indoor and Outdoor Weatherproof Control Stations
- Warranted Xenon Lamp-life
- Door Interlock Safety Switch cuts off High Voltage

Note: See Dimensions on Bulletins Y149-350W and Y149-500W

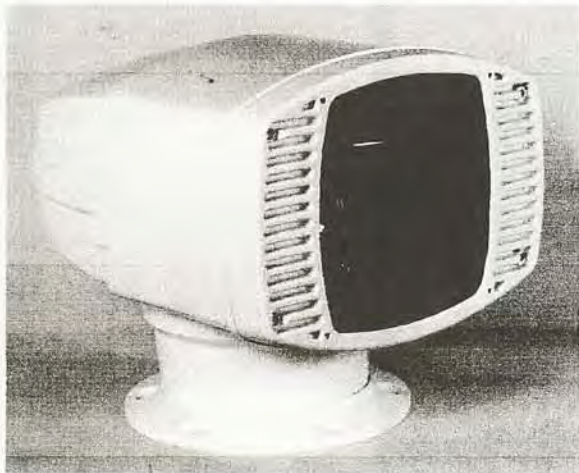

15 Million Candlepower "Streamlined"

Features

- 200 Watt....15 Million Candlepower
- Remote Electric Beam-Size Focus
- Marine Enamel, Powder Coat or Sparkling Brass Chrome
- Advanced Joystick combines simultaneous Speed and Aiming with one hand....while freeing other hand to steer vessel!
- Special Rotational Base: Slip-Ring and Brush Design provides unlimited, continuous rotation with no mechanical stop points
- Reflector is Advanced Electroformed "Deep-dish Optic"....collects more light and produces 1-Degree Beam Collimation
- Reflector made of virtually indestructible nickel...nearly always lasts the life of the Searchlight!
- Upside Down Mounting Option
- Voltages: 115VAC, 230VAC and Optional 24VDC
- Multiple Indoor and Outdoor Weatherproof Control Stations
- Warranted Xenon Lamp-life
- Door Interlock Safety Switch cuts off High Voltage

Note: See Dimensions on Bulletin Y149-200W

Advanced Xenon Benefits compared to Incandescent Halogen....

- **Increased Brightness**...Advanced "Deep-dish Optic" produces over 10 times the Candlepower!
- **Electric Beam-size Focus**....spread and narrow Beam using a remote electric switch!
- **Increased Lamp-life**...over 5 to 6 times the lamp-life, and includes warranty guarantee!
- **Reduced Power**...less than half the power consumption and over 10 times the brightness!
- **Infrared Beam**..."invisible beam" provides covert surveillance if used with night vision devices!
- **Nickel Reflector**... virtually indestructible material and nearly always lasts the life of the searchlight!
- **Advanced Joystick**...combines simultaneous Speed and Aiming Control with one hand, while freeing other hand to steer vessel(move to first position, Beam moves slowly...move further, Beam speeds u
