

*Advantages of*  
**CARGONET**

**LIGHTWEIGHT • SAFE • DURABLE • VERSATILE**

Save-all Cargonets are sufficiently strong to protect any falling cargo handled by ship's gear. The webbing is spaced close enough to prevent cargo from going through. Any size can be manually rigged and handled rapidly, and adjustments for tide conditions can be easily made. The Save-all Cargonet will bundle more compactly for stowage purposes and is easier to break out as compared to the conventional wire or manila save-all nets. In addition, standard size nets can be readily coupled for larger areas, as required.

- LIGHT WEIGHT**
- GREAT STRENGTH**
- SMALL CUBE**
- FLEXIBLE**
- RESILIENT**
- DURABLE**
- WEATHER-RESISTANT**
- SHOCK-ABSORBENT**

**STANDARD SIZES ON HAND FOR IMMEDIATE DELIVERY**
