**BRUMMEL HOOKS®**

• Strong • Fast • No moving parts

**TIP** Use on clew of sail to attach sheet for quick sail change.

Performance rated Brummel Hooks® are one of the quickest, lightest and most reliable means for connecting and disconnecting lines aboard any type of boat. Brummels save precious seconds and provide secure holding power without any moving parts. Their tapered design is far stronger than conventional hooks. No protuberances to catch or snag. Scientifically beveled opening permits instant hooking and unhooking but cannot separate by itself. Bail is sized for specific wire and rope diameters and rounded to prevent cutting, chafing, seizing or weakening.

BRUMMEL HOOK®		Safe sizes for use with:		
Product No.	Material	Max. Safe Load	7 x 19 Gal Wire	Rope
00	Almag (magnesium-aluminum)	200 lbs. (91 kg)	1/16" (1.6 mm)	1/4 or 5/16" (6.4 to 7.9 mm)
0	Manganese Bronze	750 lbs. (340 kg)	1/8" (3.2 mm)	3/8 or 7/16" (9.5 to 11.1 mm)
1	Manganese Bronze	1500 lbs. (680 kg)	3/16" (4.8 mm)	1/2 or 9/16" (12.7 to 14.2 mm)
2	Manganese Bronze	3000 lbs. (1360 kg)	1/4" (6.4 mm)	5/8 or 3/4" (15.9 to 19.0 mm)
